

WAKOL RS 5945 Edging Strips

Technical Information

Area of application

Permanently elastic edge stripes with self-adhesive pedestal to be used if thicker levelling layers are required and before levelling with WAKOL Z 510 Thin Screed.

Technical data

| Material: | 5 mm thick and 50 mm high self adhesive stemming strip with self-adhesive pedestal made of PE |
|----------------------|---|
| Delivery: | rolls of 25 meters / 4 rolls in a carton |
| Storage time: | 12 months |
| Storage temperature: | store cool, not susceptible of freezing |
| Giscode: | - |

Usage

Remove the protective plastic sheet and stick the self-adhesive pedestal directly on the dust free subfloor, the corner tension presses the insulating stripe against the wall.

The fleece back of the pedestal can be levelled directly.

Important

We guarantee the uniform high quality of our products. All data is based on tests and many years of practical experience and refers to standardised conditions. The variety of materials used and the different construction site conditions, which lie beyond our control, preclude any claims based on this data. We therefore recommend making sufficient trials. Accompanying flooring manufacturer's instructions and the currently applicable codes must be observed. We gladly provide technical advice.

This Technical Information of 09.09.09 supersedes all previous versions.
