

# WAKOL RS 5935 Edging Strips

## Technical information

### Area of application

Self adhesive, permanently elastic edge strip made of polyethylene for use whenever a higher levelling thickness is required as well as before installing WAKOL Z 510 Thin Screed.

### Technical data

Material:	5 mm thick and 50 mm high self adhesive stemming strip made of PE
Delivery:	rolls of 25 meters / 10 rolls in a PE bag
Storage time:	12 months
Storage temperature:	store cool, not susceptible of freezing

### Method of use

Self adhesive stemming strip to simply be bonded on the wall. High bonding strength secures the adhesion on many substrates.

### Important

We guarantee the uniform high quality of our products. All data is based on tests and many years of practical experience and refers to standardised conditions. The variety of materials used and the different construction site conditions, which lie beyond our control, preclude any claims based on this data. We therefore recommend making sufficient trials. Accompanying flooring manufacturer's instructions and the currently applicable codes must be observed. We gladly provide technical advice.

The product data sheets can be found in their latest version at [www.wakol.com](http://www.wakol.com).

This Technical Information of 03.07.2012 supersedes all previous versions.
