

# WAKOL RT 5960 Cleaning Cloth

## Technical information

### Area of application

Impregnated, very absorbent cloths for cleaning hands and tools, especially for cleaning off non-hardened PU adhesives, oils, greases and paints.

### Technical data:

Appearance:	fibre-reinforced, specially impregnated cloths. Citrus substances emit a pleasant odour.
Delivery:	150 cloths in bucket with re-closable removal opening.
Storage:	approx. 12 months
Storage temperature:	Store in a cool place; not sensitive to freezing
Giscode:	not applicable

### Usage:

Cloths can be individually taken (torn off) from the container. After using do not leave on sealed or oiled surface.

Reactive adhesives and paints can be removed only when fresh.

The cloths additionally contain skin moisturisers.

## Important

We guarantee the uniform high quality of our products. All data is based on tests and many years of practical experience and refers to standardised conditions. The variety of materials used and the different construction site conditions, which lie beyond our control, preclude any claims based on this data. We therefore recommend making sufficient trials. Accompanying flooring manufacturer's instructions and the currently applicable codes must be observed. We gladly provide technical advice.

This Technical Information of 24 November 2004 supersedes all previous versions.
